

JOB DESCRIPTION

JOB TITLE: Director of Nursing

GRADE: 25

JOB CODE: 2000

EST. DATE: 7-1-06

GENERAL FUNCTION: Responsible for the planning, organizing, directing and financial management of a comprehensive public health nursing program for assigned local health departments. Requires the independent application of an extensive level of experienced judgment and skills. Serves as an advisor to the agency's director on all matters pertaining to nursing. Interprets and supports the purposes, philosophy and objectives of the agency. Provides performance evaluations for the Nurse Administrators. Eighty to ninety percent of time is spent in management activities with minimal amount of time spent in direct client care.

COMPETENCIES AND CHARACTERISTIC RESPONSIBILITIES:

Directs the nursing component of a comprehensive public health program in the agency's local health department/s.

1. Serves as an expert nursing resource person for local health nurses, public health nurses and local health nurses working in home health.
2. Establishes, interprets and disseminates agency and state policy and protocols to ensure uniform delivery of services.
3. Reviews and updates all nursing care policies and procedures regularly to assure consistency with the law and practice standards.
4. Serves with regional or state staff on policy review committees.
5. Interprets statutes and regulations that impact public health nursing.
6. Develops procedures, in accordance with established standards and policies for the fulfillment of program goals.
7. Collaborates with other health care providers to provide comprehensive integrated services.
8. Collaborates with community agencies in identifying service needs and works with the Public Health Director to develop service plans to assist in meeting community health care needs.
9. Assigns and oversees activities of the Nurse Administrators, Supervisor I and II nurses and indirectly to other nursing staff and agency staff.
10. Completes the performance evaluations of the agency's Nurse Administrators, as well as other assigned nursing staff.
11. Anticipates potential problem situations and intervenes to offset any adverse impact. Analyzes and reports specific emerging problems to the Public Health Director.
12. Prepares formal performance reports, as indicated.

JOB TITLE: Director of Nursing (Continued)

JOB CODE: 2000

13. Assesses staffing utilization and needs. Makes recommendations, as necessary, to provide adequate coverage for the provision of services to improve quality.
14. Participates in the recruitment and selection of nursing personnel.

Actively participates in quality assurance and utilization reviews.

1. Initiates and participates in studies/research activities in the evaluation/development of services.
2. Monitors quality of care of the provision of services through direct observation via site visits or indirectly through medical audits.
3. Collects statistical data and prepares comprehensive reports regarding health services or program activities.
4. Reviews periodic reports to determine status in meeting program/service goals.
5. Evaluates data and develops plans for improvement of services and makes recommendations to appropriate management and supervisory staff.
6. Discusses methods to improve performance and motivate employees.
7. Participates in utilization care conferences, billing audits and quarterly record reviews.

Communicates effectively both in writing and orally, including documentation, record keeping and correspondence.

1. Uses appropriate communication strategies to effect positive outcomes.
2. Listens to others and shares knowledge in a non-judgmental manner.
3. Communicates or disseminates information to staff by informal or formal means.
4. Communicates changes in protocol/policy to nursing staff.
5. Communicates information, concerns or problems to the Public Health Director, as needed.
6. May represent the agency in making presentations on public health and/or public health issues to schools of nursing or to members of the community.

When indicated and as needed, develops and conducts educational counseling and teaching activities either formally or informally.

1. Provides current and up to date information regarding assigned area to agency employees.
2. Informs employees of promotional and training opportunities.
3. Identifies and participates in planning and implementation of education activities.
4. Periodically evaluates teaching plan(s) based on the staff's level of compliance with the assigned area.
5. May approve and provide for orientation of new staff members.

JOB TITLE: Director of Nursing (Continued)

JOB CODE: 2000

Practices with professionalism and accountability as employee of the local health department.

1. Adheres to local health department attendance and punctuality policies.
2. Prioritizes work to provide for the greatest level of efficiency and production.
3. Practices fiscal responsibility through timely correct coding of employee time sheet, Patient Encounter Form (PEF), Supplemental Reporting Form, and Community Reporting Form.
4. Attends and represents the agency at various local, state and regional meetings.
5. Participates in the development and administration of budgets.
6. Determines priorities and develops program plans and associated budgets for the nursing/medical program.
7. Compares agency's nursing related expenses to budgeted funding to ensure the agency remains within the allotted budget.

Develops and implements a plan of continued professional growth and development.

1. Maintains nursing CEUs and seeks continuous learning opportunities.
2. Maintains liaison with nursing programs in colleges and universities for curriculum development and appropriate clinical practice experiences in public health. Assists in formulating learning objectives.
3. Develops and implements plans for orientation, in-service training and continuing education for nurses and related personnel.

Demonstrates a commitment to a healthy and safe work environment.

1. Follows established federal, state or local policies, procedures and programs relating to health and safety in the workplace.
2. Takes steps to promptly correct hazardous conditions.
3. Regularly participates in training and education in safety practices and procedures, such as annual OSHA training.

Participates in the Local Health Department's Bioterrorism and Disaster Preparedness activities.

1. Is aware of general contents of agency's Emergency Operations Plan.
2. Identifies role in Emergency Preparedness and Response.
3. Identifies agency's chain of command and management system for emergency response.
4. Participates in Bioterrorism and Emergency Preparedness drills.

OR

Associate degree in nursing from an accredited school of nursing. Five (5) years of experience in nurse practice (two (2) of the five (5) years must have been in a community health setting.)

JOB TITLE: Comm. Health Nursing Super. (Continued)

JOB CODE: 2002

The intent of this job description is to provide a representative summary of duties and responsibilities that will be required of positions given this title and shall not be construed as a declaration of the specific duties and responsibilities of any particular position. Employees may be requested to perform job-related tasks other than those specifically presented in this description.

JOB DESCRIPTION

JOB TITLE: Nurse Administrator

GRADE: 24

JOB CODE: 2003

EST. DATE: 7-1-06

GENERAL FUNCTION: Responsible for management functions, such as planning, directing and organizing several programs provided by the local health department serving a multi-county or other geographic area. Requires the independent application of experienced judgment and skills. All activities are carried out under general supervision of the Director of Nurses, Public Health Director or designee in accordance with the Kentucky Board of Nursing Practice Act, the Kentucky Department for Public Health mission, goals, and essential services, the Kentucky Public Health Practice Reference (PHPR), and other relevant federal, state, and local guidelines. Coordinates the local health department's programs of nursing services. Supervises nurses and other staff as assigned. Provides performance evaluations for the Supervisor I and II nurses and other nurses as directed. Limited amount of time is spent in direct client care due to the high percentage of time spent in management activities.

COMPETENCIES AND CHARACTERISTIC RESPONSIBILITIES:

Provides basic nursing care to the client on a very limited basis, as needed. Practice is consistent with the PHPR, Nursing Scope and Standards of Practice, established policies, procedures, and licensing laws.

1. Reviews client's medical record for history of provided services and plans of care.
2. Identifies relevant and appropriate data and information sources.
3. Identifies health risks and implements risk reduction strategies for self and others.
4. Reports incidents according to proper procedures.
5. Refers to Director of Nurses as needed.
6. Delegates aspects of nursing care to other members of the health care team commensurate with their educational preparation and experience and provides appropriate oversight.
7. Uses basic computer skills to access data and retrieve programmatic information from the PHPR with minimal assistance
8. Uses the PHPR as a reference guide.
9. Utilizes considerable awareness of community assets and available resources when assisting with making appropriate referrals and outreach.
10. Documents services provided to the client in the medical record entering required service/program specific information according to the PHPR and Administrative Reference (AR). Maintains confidentiality and privacy within the agency, state medical information requirements and HIPAA guidelines

JOB TITLE: Nurse Administrator (Continued)

JOB CODE: 2003

Provides overall management and guidance to the nursing programs for specifically assigned area/s.

1. Serves as an expert nursing resource person, providing technical assistance to nurses in the delivery of nursing care.
2. Interprets and facilitates programmatic policies and protocols to ensure uniform delivery of nursing services according to the PHPR, AR and other agency, local and state guidelines.
3. Actively participates in policy development.
4. Assures that agency and staff have needed equipment and information in order to comply with assigned area's rules and guidelines.
5. Maintains an environment of trust, fairness, consistency and confidentiality with diverse staff members and with other client/family members.
6. Anticipates potential problem situations and intervenes to offset any adverse impact. Conveys specific problems to the Director of Nurses or Public Health Director.
7. Provides advice, counsel and instruction to supervisors and other nursing or supportive staff members on both work and administrative matters pertaining to assigned area.
8. Assigns and oversees activities of the Supervisor I and II nurses.
9. Performs performance evaluations of the Supervisor I and II nurses, as well as other assigned nursing staff.
10. Prepares formal performance reports, as indicated, for local and state agencies.
11. Assures adequate coverage of services through implementation of organizational and/or staffing changes.

Actively participates in quality assurance and utilization reviews.

1. Supervises staff training in nursing technique and procedures
2. Gathers information either directly by observation or indirectly through reports in order to evaluate compliance with assigned area's rules and guidelines and ensures quality of care of services.
3. Ensures agency compliance with federal and state rules and regulations including compliance with safety and infection control policies and procedures.
4. Collects statistical data and prepares comprehensive reports regarding health services or program activities.
5. Evaluates data and develops plans for improvement of services and makes recommendations to appropriate management and supervisory staff.
6. Develops and maintains clinic or program records.
7. Participates in utilization care conferences, billing audits and quarterly record reviews.

JOB TITLE: Nurse Administrator (Continued)**JOB CODE:** 2003

Communicates effectively both in writing and orally, including documentation, record keeping and correspondence.

1. Uses appropriate communication strategies to effect positive client care outcomes.
2. Listens to others and shares knowledge in a non-judgmental manner.
3. Communicates or disseminates information to staff by informal or formal means.
4. Communicates information, concerns or problems to the Director of Nurses, Public Health Administrator or Public Health Director, as needed, regarding assigned area/s.

When indicated and as needed, develops and conducts educational counseling and teaching activities either formally or informally.

1. Provides current and up to date information regarding assigned area to agency employees.
2. Utilizes selected educational methods and materials that are appropriate to language, reading level and needs.
3. Periodically evaluates teaching plan(s) based on the staff's level of compliance with the assigned area.
4. Identifies and participates in planning and implementation of education activities.

Practices with professionalism and accountability as employee of the local health department.

1. Adheres to local health department attendance and punctuality policies.
2. Organizes, prioritizes and provides care in a timely and cost-effective manner.
3. Prioritizes work assignments to accomplish job tasks.
4. Practices fiscal responsibility through timely correct coding of employee time sheet, Patient Encounter Form (PEF), Supplemental Reporting Form, and Community Reporting Form.
5. Represents the agency, as requested, for Board of Health, state and regional meetings.
6. Assists in budget preparation and monitors revenues and expenditures, as appropriate or according to program requirements.

Develops and implements a plan of continued professional growth and development.

1. Maintains nursing CEUs and seeks continuous learning opportunities.
2. Participates in training related to job responsibilities and completes required training as soon as feasible.
3. Provides for clinical experiences for nursing students and for new Local Health Nurses.

JOB TITLE: Nurse Administrator (Continued)

JOB CODE: 2003

4. Develops and implements plans for continuing education and in-service training of appropriate staff.

Demonstrates a commitment to a healthy and safe work environment.

1. Follows established federal, state or local policies, procedures and programs relating to health and safety in the workplace.
2. Takes steps to promptly correct hazardous conditions.
3. Regularly participates in training and education in safety practices and procedures, such as annual OSHA training.

Participates in the Local Health Department's Bioterrorism and Disaster Preparedness activities.

1. Is aware of general contents of agency's Emergency Operations Plan.
2. Identifies role in Emergency Preparedness and Response.
3. Identifies agency's chain of command and management system for emergency response.
4. Participates in Bioterrorism and Emergency Preparedness drills.

SUPERVISION RECEIVED: Receives policy direction from the Director of Nurses and/or the Public Health Director.

SUPERVISION EXERCISED: Provides direct supervision of the nurse supervisors. Provides indirect supervision of other nurses, unlicensed assistive personnel and support staff consistent with the Kentucky Board of Nursing Advisory Opinion on Delegated Authority, as well as, local and state guidelines.

JOB SPECIFICATIONS:

Knowledge:

- Extensive knowledge of professional nursing theory, standard nursing protocol and the legal implications of nursing practice, including relevant statutes and regulations.
- Knowledge of the scope of practice for the RN, LPN, and ARNP in Kentucky.
- Knowledge of the KBN Delegation Advisory Opinion Statement.
- Knowledge of evidence-based practice and its application in the promotion of healthy outcomes.
- Knowledge of basic management and public administration principles and practices.
- Good knowledge of methods of assessing the type and amount of nursing care provided and the performance of nursing staff members.
- Extensive level of knowledge of community resources available to clients.

JOB TITLE: Nurse Administrator (Continued)

JOB CODE: 2003

- Knowledge of the purpose and role of public health nursing and core public health functions within a health care system.

Skills:

- High level of skill in the application of nursing techniques, procedures and instruments according to recognized policies.
- High level of skill in utilizing appropriate oral and written communication with clients, nurses and other agency staff regarding multiple aspects of the assigned area.
- High level of skill in managing work-related activities
- Moderate level of skill in assessing staffing and equipment needs.

Abilities:

- Considerable ability to establish, interpret and implement policies, procedures and treatment plans in accordance with program/agency standards.
- Ability to assess type and amount of nursing services required, selecting priorities, planning schedules and assigning tasks.
- Ability to evaluate quality of nursing care and the performance of staff.
- Ability to interview and counsel clients.
- Ability to develop cooperative working relationships with agency staff and other service providers.

COMMUNITY HEALTH NURSE-HOSPICE

JOB TITLE: Community Health Nurse-Hospice

GRADE: 15

JOB CODE: 2107

DATE: 3/20/95

GENERAL FUNCTION: Under general direction provides moderately difficult intermittent skilled nursing services in the palliation and management of terminal illness and related conditions to individuals in the home or institutional setting. The hospice nurse would participate as a member of an interdisciplinary group in developing and implementing a plan established by the attending physician, medical director, or physician designee of treatment for each hospice patient. Nursing services provided would be intermittent and may also require 24 hour on call coverage to the extent necessary to meet the needs of individuals.

CHARACTERISTIC DUTIES AND RESPONSIBILITIES:

Participates as a member of an interdisciplinary group (physician, nurse, social worker, pastoral or other counselor) in the establishment and periodic review and update of a plan of care for the patient.

Initiate and maintain communication with attending physician, other hospice and home health disciplines, and other agencies, as needed, to coordinate optimal care and use of resources for patient and family.

Obtain data on physical, psychological, social and spiritual factors that may influence patient/family health status and incorporate into plan of care. Initiates appropriate referrals to other community agencies.

Provides intermittent skilled nursing services.

Maintain an effective system of clinical records for hospice patients in accordance with appropriate standards.

Coordinates treatment plan with other care givers such as, physician, home health aides, LPNs, social workers, and pastoral counseling.

Makes supervisory visits of patients to evaluate services and performance of home health aides.

Coordinates and supervise the volunteer placements with hospice patients/family and establish or coordinate volunteer training activities.

Familiar with hospice policies of agency and rules and regulations of state and federal bodies.

JOB TITLE: Community Health Nurse-Hospice (Cont'd)

JOB CODE: 2107

Discusses progress of patient(s) with physicians and other care givers.

SUPERVISION RECEIVED: Moderate supervision under standard operating procedures; incumbent occasionally can function autonomously, with supervisor available to answer questions.

SUPERVISION EXERCISED: Supervision limited to evaluation of home health aides for services provided (competency evaluation).

JOB SPECIFICATIONS:

Knowledge and Abilities:

Good knowledge of professional nursing theory; of standard nursing protocol; of the legal implications of the practice of nursing; of the relationship of other disciplines to the discipline of nursing; of routine laboratory tests and radiological procedures; of the signs and symptoms of a variety of common disorders; of standard nursing techniques and procedures; of the preparation of nursing care plans for individual patients/clients.

Working skill in the application of nursing techniques, procedures, and instruments.

Working skill in oral communication with patients/clients, physicians, nurses, and other staff regarding evaluation or treatment.

Working ability to learn the standard procedures and services of the assigned program or unit; to interview and counsel patients/clients; to encourage the patient/client to participate in the appropriate health programs; to explain the significance of conditions or diseases to patients; to interact therapeutically with patients; to develop cooperative working relationships with other service providers; to use nursing judgment to determine when the patient should be referred to the nursing supervisor, physician or other health care provider for further evaluation and treatment.

Minimum Education, Training, and Experience Requirements: Bachelors degree in Nursing from an accredited school

OR

Graduate of an Associate degree program in nursing from an approved school. One (1) year of experience in nursing practice.

The intent of this job description is to provide a representative summary of duties and responsibilities that will be required of positions given this title and shall not be construed as a declaration of the specific duties and responsibilities of any particular position. Employees may be requested to perform job-related tasks other than those specifically presented in this description.

COMMUNITY HEALTH NURSE APPLICANT

JOB TITLE: Community Health Nurse Applicant

GRADE: 14

JOB CODE: 2110

DATE: 11/8/95

CHARACTERISTICS OF THE CLASS: A "registered nurse applicant" in this class provides skilled nursing care in a community health setting including, but not limited to clinics, homes, and schools. Interventions initiated by nurses in this class require judgments and adaptations of established nursing practice and program guidelines according to needs demonstrated by clients. Work is performed under the professional and administrative direction and supervision of appropriate nursing personnel, physicians, and dentists. Performance is reviewed periodically through conferences, observation, and written evaluations.

CHARACTERISTIC DUTIES OF THE CLASS;

Participates in the development and implementation of the plan of care.

Based on assessment of family and client needs, gives skilled nursing care, sets priorities and makes modifications as necessary.

Teaches, supervises, and counsels clients and families regarding the care of clients and other related problems.

Carries out preventative, diagnostic, and therapeutic procedures as directed.

Makes appropriate referrals. Provides continuity of care for clients receiving services from more than one agency, by planning, coordinating, and exchanging information.

Maintains records and reports according to program standards.

Participates in drills in preparation for health department or county emergencies.

JOB SPECIFICATIONS:

Knowledge and Abilities:

Knowledge of current nursing practices.

Ability to provide skilled nursing care.

Knowledge of the development and implementation of patient care plans.

Initiative, judgment, and ability to set priorities.

JOB TITLE: Community Health Nurse Applicant (Con't)

JOB CODE: 2110

Ability to recognize the needs and concerns of people and maintain constructive relationships with clients and co-workers.

Ability and willingness to accept and utilize supervision.

Understanding of limitations and willingness to seek out resources and assistance.

Ability to communicate effectively, orally, and in writing.

Maintains professional attitude toward confidentiality of clients' records and conversations.

Knowledge of health department and county emergency/disaster protocol.

Minimum Education, Training, and Experience Requirements: Graduation from an associate degree program or diploma program in nursing that is state approved. Work experience is not required.

This is a special non status position for persons who have obtained a temporary work permit from the Kentucky Board of Nursing. A nurse may be employed in this position only for the length of time required to process applications for enforcement or to conduct and determine the results of licensing examinations. At such determination, the nurse who becomes licensed shall be reclassified and the time employed shall be counted toward fulfilling probationary requirements. The nurse who does not become licensed shall be terminated.

The intent of this job description is to provide a representative summary of duties and responsibilities that will be required of positions given this title and shall not be construed as a declaration of the specific duties and responsibilities of any particular position. Employees may be requested to perform job-related tasks other than those specifically presented in this description.

JOB DESCRIPTION

JOB TITLE: Advanced Registered Nurse Practitioner (ARNP)

GRADE: 20

JOB CODE: 2111

DATE: 11-8-95

REVISED: 7-1-06

GENERAL FUNCTION: Under administrative direction and guidance provides comprehensive and professional health care to clients in the local health department or community settings including clinics, homes and schools. Practice is distinguished by autonomy of practice and is characterized by both an increased complexity of clinical decision-making ability and greater skill in managing organizations and environments. Activities are carried out in accordance with the Scope and Standards of Advanced Practice Registered Nursing, Kentucky Board of Nursing Practice Act, the Kentucky Department for Public Health mission, goals, and essential services, the Kentucky Public Health Practice Reference (PHPR), and other relevant federal, state, and local guidelines. The nurse in this position demonstrates a high level of expertise in the assessment, diagnosis, and treatment of the complex responses of individuals, families, or communities to actual or potential health problems, prevention of illness and injury, maintenance of wellness, and provision of comfort.

COMPETENCIES AND CHARACTERISTIC RESPONSIBILITIES:

Identifies the physical, social and emotional health needs of individuals and families through systematic assessment, utilization of professional skills, health history, physical evaluations and lab or other diagnostic tools.

1. Collects comprehensive client health data.
2. Interviews client to address the presenting/initial reason for visiting the health department and subsequent willingness for service(s) offered and indicated.
3. Conducts nursing assessment, as appropriate, of client using PHPR service guidelines to obtain and document pertinent physical, social, behavioral, environmental, and lifestyle factors that influence health.
4. Initiates and interprets diagnostic tests and procedures relevant to the client's current status.
5. Critically analyzes the assessment data in determining the diagnoses.
6. Prioritizes diagnoses using appropriate complex clinical reasoning.
7. Describes services that are available (or refers) and eligibility criteria as appropriate.

Develops and implements a comprehensive plan of care that includes interventions and treatments to attain expected outcomes.

JOB TITLE: ARNP (Cont'd)

JOB CODE: 2111

1. Describes the assessment/diagnostic strategies and therapeutic interventions that reflect current health care, knowledge, research and practice.
2. Addresses strategies for promotion and restoration of health and prevention of illness, injury, and disease through independent clinical decision-making.
3. Involves client, family, and other members of the health care team, including use of community resources in the plan of care.
4. Incorporates plan of care into the client medical record. Periodically updates plan of care based on follow-up visits and services provided and compliance of the client.

Utilizes appropriate or specialized knowledge and skills in the provision of direct client care

11. Prescribes, orders or implements interventions and treatments for the plan of care. Uses the PHPR as a reference guide for specific programmatic guidelines.
12. Prescribes or dispenses non-scheduled legend drugs based on a knowledge of pharmacological and physiological principles in accordance with state and federal laws and regulations.
13. Performs interventions and treatments within the scope of advanced practice registered nursing.
14. Considers and evaluates factors related to safety, effectiveness and cost in planning and delivering client care.
15. Provides comprehensive clinical coordination of care.
16. Delegates appropriate nursing care functions to registered nurses, licensed practical nurses, unlicensed nursing assistive personnel and students commensurate with their educational preparation and experience, retaining responsibility and supervision of care.
17. Provides consultation to influence the client's plan of care, enhance the abilities of others and effect change in the system, as needed.
18. Reports incidents according to proper procedures.
19. Refers to the Supervisor, Nurse Administrator or Director of Nursing, as needed.
20. Utilizes an extensive awareness of community assets and available resources when assisting with making appropriate referrals and outreach.

Documents services provided to the client in the medical record, entering required service/program specific information according to the PHPR and Administrative Reference (AR).

1. Maintains confidentiality and privacy within the agency, state medical information requirements and HIPAA guidelines.
2. Maintains records and reports according to program standards.
3. Documents revisions in diagnoses, outcomes and plans of care.

Collaborates with the health team members to establish priorities, manage care and coordinate efforts to achieve desired outcomes in providing planned services to the client.

1. Works toward development of innovative methods of dealing with work-site problems, writing of policy and procedures and program plans.
2. Participates with the Nurse Administrator or Director of Nursing and other members of the agency in planning, implementing, and evaluating the agency's programs.
3. Provides nursing expertise and consultation to nursing personnel and others in a specific program.

Utilizes complex strategies, interventions and teaching to promote, maintain, and improve health and prevent illness and injury.

1. Uses strategies based on assessment of risks, learning theory, epidemiological principles and client's health beliefs and practices.
2. Plans, arranges for and presents educational programs for individuals or groups within the clinic or community setting.
3. Effectively presents accurate demographic, statistical, programmatic, and scientific information for professional and lay audiences.
4. Disseminates relevant research findings through practice, education or consultation.
5. Assures that health promotion, maintenance and teaching methods are appropriate to the client's developmental level, learning needs, readiness and ability to learn and culture.
6. Periodically evaluates teaching plan(s) based on the progress of the client in attaining expected outcomes.

Serves as a leader and role model for professional development of peers and others.

1. Participates in professional activities.
2. Works to influence policy-making bodies to improve client care.
3. Participates with the Nurse Administrator or Director of Nursing and other members of the agency's staff in planning, implementing and evaluating agency programs.
4. Participates in staff development programs including orientation, in-service, continuing education for nursing and other agency personnel.
5. Works with the Nurse Administrator or Director of Nursing and clinical instructors of educational institutions in planning appropriate clinical experiences for students in the health care fields.
6. Fosters a learning environment when mentoring students.

JOB TITLE: ARNP (Cont'd)

JOB CODE: 2111

Develops and implements a plan of continued professional growth and development.

1. Maintains nursing CEUs and seeks continuous learning opportunities.
2. Acquires and maintains current knowledge and skills in the area of specialty practice.
3. Seeks experiences and formal and independent learning activities to maintain and develop clinical and professional skills and knowledge.
4. Uses current health care research to expand clinical knowledge, enhance role performance and increase knowledge of professional issues.
5. Develops collegial relationships for the purpose of professional development.
6. Completes yearly updates/trainings as required by selected programs and licensure requirements.

Systematically evaluates the quality and effectiveness of nursing practice.

1. Participates in quality of care activities.
2. Participates in the collection of data to monitor quality and effectiveness of nursing care.
3. Participates on interdisciplinary teams to evaluate clinical practice or health services.
4. Works with agency staff to develop policies and procedures to improve quality of care.
5. Participates in audits of client records.

Demonstrates a commitment to a healthy and safe work environment.

4. Follows established federal, state or local policies, procedures and programs relating to health and safety in the workplace.
5. Takes steps to promptly correct hazardous conditions.
6. Regularly participates in training and education in safety practices and procedures, such as annual OSHA training.

Participates in the Local Health Department's Bioterrorism and Disaster Preparedness activities.

5. Is aware of general contents of agency's Emergency Operations Plan.
6. Identifies role in Emergency Preparedness and Response.
7. Identifies agency's chain of command and management system for emergency response.
8. Participates in Bioterrorism and Emergency Preparedness drills.

SUPERVISION RECEIVED: Works under broad goals and policies under general direction of the appointing authority and the Nurse Administrator, Director of Nursing, Physician or Medical Director.

JOB TITLE: ARNP (Cont'd)

JOB CODE: 2111

SUPERVISION EXERCISED: May mentor or act as working supervisor to registered nurses, LPNs, unlicensed assistive personnel and support staff consistent with the Kentucky Board of Nursing Advisory Opinion on Delegated Authority, as well as, local and state guidelines.

JOB SPECIFICATIONS:

Knowledge:

- Knowledge of professional nursing theory, standard nursing protocol and the legal implications of nursing practice, including statutes and regulations relevant to advanced practice nursing.
- Knowledge of the scope of practice for the RN, LPN, and ARNP in Kentucky.
- Knowledge of the KBN Delegation Advisory Opinion Statement.
- In-depth knowledge of evidence-based practice and its application in the promotion of healthy outcomes.
- Knowledge of current nursing research as appropriate to specialty area.
- Advanced knowledge of pharmacology, especially as appropriate to specialty area.

Skills:

- Expert skill in diagnosis and treatment of individuals, families or communities.
- Proficient skill in the application of nursing techniques, procedures and instruments according to recognized policies.
- Proficient skill in interviewing and counseling clients.
- High level of skill in utilizing appropriate oral and written communication with clients, physicians, nurses, staff and community members.

Abilities:

- Considerable ability to exercise independent judgment.
- Considerable ability to formulate clinical decisions to manage acute and chronic illness and promote wellness.
- Able to identify the scope of practice permitted by state and federal laws and regulations and professional practice standards.
- Able to provide leadership to nursing staff by demonstrating proper nursing techniques and procedures.
- Able to work cooperatively with other professional and paraprofessional staff members
- Able to delegate responsibilities to subordinate direct care staff commensurate with their skills and experience.

JOB TITLE: ARNP (Cont'd)

JOB CODE: 2111

MINIMUM EDUCATION, TRAINING, AND EXPERIENCE REQUIREMENTS:

Current active registered nurse license from the Kentucky Board of Nursing; and

COMMUNITY HEALTH NURSE INTERN

JOB TITLE: Community Health Nurse Intern

GRADE: 14

JOB CODE: 2120

DATE: 11/8/95

CHARACTERISTICS OF THE CLASS: This is a special non status position for persons who are licensed but do not have the one-year required experience for the Community Health Nurse. A "registered nurse applicant" in this class provides skilled nursing care in a community health setting including, but not limited to clinics, homes, and schools. Interventions initiated by nurses in this class require judgments and adaptations of established nursing practice and program guidelines according to needs demonstrated by clients. Work is performed under the professional and administrative direction and supervision of appropriate nursing personnel, physicians, and dentists. Performance is reviewed periodically through conferences, observation, and written evaluations.

CHARACTERISTIC DUTIES AND RESPONSIBILITIES:

Participates in the development and implementation of the plan of care.

Based on assessment of family and client needs, gives skilled nursing care, sets priorities and makes modifications as necessary.

Teaches, supervises, and counsels clients and families regarding the care of clients and other related problems.

Carries out preventative, diagnostic, and therapeutic procedures as directed.

Makes appropriate referrals. Provides continuity of care for clients receiving services from more than one agency, by planning, coordinating, and exchanging information.

Maintains records and reports according to program standards.

Participates in drills in preparation for health department or county emergencies.

JOB SPECIFICATIONS:

Knowledge and Abilities:

Knowledge of current nursing practices.

Ability to provide skilled nursing care.

Knowledge of the development and implementation of patient care plans.

JOB CODE: Community Health Nurse Intern (Cont.)

JOB CODE: 2120

Initiative, judgment, and ability to set priorities.

Ability to recognize the needs and concerns of people and maintain constructive relationships with clients and co-workers.

Ability and willingness to accept and utilize supervision.

Understanding of limitations and willingness to seek out resources and assistance.

Ability to communicate effectively, orally, and in writing.

Maintains professional attitude toward confidentiality of clients' records and conversations.

Knowledge of health department and county emergency/disaster protocol.

Minimum Education, Training, and Experience Requirements: Graduation from an associate degree program or diploma program in nursing and licensed to practice nursing in Kentucky.

Work experience is not required.

The intent of this job description is to provide a representative summary of duties and responsibilities that will be required of positions given this title and shall not be construed as a declaration of the specific duties and responsibilities of any particular position. Employees may be requested to perform job-related tasks other than those specifically presented in this description.

JOB DESCRIPTION

JOB TITLE: Local Health Nurse I

GRADE: 15

JOB CODE: 2122

EST. DATE: 7-1-06

GENERAL FUNCTION: Provides basic entry-level nursing functions and services to individuals and families under supervision in a clinic or community setting. The nurse in this classification would receive job specific training (mentorship) in the requirements and scope of practice of the various assigned health department programs and services. Job duties and responsibilities are carried out in accordance with the Kentucky Board of Nursing Practice Act, the Kentucky Department for Public Health mission, goals, and essential services, the Kentucky Public Health Practice Reference (PHPR), and other relevant federal, state, and local guidelines. Direct nursing services would be provided in routine and specialty clinics that provide adult and pediatric, family planning, immunization, communicable and sexually transmitted disease, WIC and other health care services.

COMPETENCIES AND CHARACTERISTIC RESPONSIBILITIES:

Orients to health department programs and services, including the Core Functions and Essential Services. Orients to local policy guidelines and the Internal Control Program. Orients to the reporting procedures for abuse, neglect and exploitation.

Interviews client to address the presenting/initial reason for visiting health department and subsequent willingness for service(s) offered and indicated. Conducts nursing assessment, as appropriate, of client using PHPR service guidelines to obtain and document pertinent physical, social, behavioral, environmental, and lifestyle factors that influence health. Obtains specimens and utilizes the Division of Laboratory Services Guidelines for proper laboratory/specimens handling and packaging. Describes services that are available (or refers) and eligibility criteria as appropriate.

Develops and implements a plan(s) of care based on the health risks identified during the nursing assessment and discussion with the client, including eligibility determination, based on client specific characteristics (age, sex, race, programmatic, ethnic, cultural) outlining services to be provided to promote and maintain optimum health status of the client. Incorporates plan of care into the client medical record. Periodically updates plan of care based on follow-up visits and services provided and compliance of the client.

Provides basic nursing care to the client based on determined needs either on an ongoing or infrequent basis consistent with the PHPR, Nursing Scope and Standards of Practice, established policies, procedures, and licensing laws.

1. Reviews client's medical record for history of provided services and plans of care.
2. Identifies relevant and appropriate data and information sources.
3. Identifies health risks and implements risk reduction strategies for self and others.

JOB TITLE: Local Health Nurse 1

JOB CODE: 2122

4. Reports incidents according to proper procedures.
5. Refers to supervisor as needed.
6. Delegates aspects of nursing care to other members of the health care team commensurate with their educational preparation and experience and provides appropriate oversight.
7. Uses basic computer skills to access data and retrieve programmatic information from the PHPR with minimal assistance
8. Uses the PHPR as a reference guide.
9. Utilizes a basic awareness of community assets and available resources when assisting with making appropriate referrals and outreach.
10. Participates as team member, having basic understanding of the team process.

Documents services provided to the client in the medical record entering required service/program specific information according to the PHPR and Administrative Reference (AR). Maintains confidentiality and privacy within the agency, state medical information requirements and HIPAA guidelines

Practices with professionalism and accountability as employee of the local health department.

1. Adheres to local health department attendance and punctuality policies.
2. Organizes, prioritizes and provides care in a timely and cost-effective manner.
3. Prioritizes work assignments to accomplish job tasks.
4. Practices fiscal responsibility through timely correct coding of employee time sheet, Patient Encounter Form (PEF), Supplemental Reporting Form, and Community Reporting Form.

Communicates effectively both in writing and orally, including documentation, record keeping and correspondence.

1. Uses therapeutic communication effectively with clients, families and health team members.
2. Uses appropriate communication strategies to effect positive client care outcomes.
3. Listens to others and shares knowledge in a non-judgmental manner.

Develops and conducts educational counseling and teaching activities for individual clients and families based on the nursing assessment, focusing on assisting the client/family in understanding their health needs with an emphasis on the promotion, maintenance, and restoration of health, and self care, utilizing selected educational methods and materials that are appropriate to the language, reading level and needs. Periodically evaluates teaching plan(s) based on the progress of the client in complying with the objectives of the educational materials.

Develops and implements a plan of continued professional growth and development.

1. Maintains nursing CEUs and seeks continuous learning opportunities.

JOB TITLE: Local Health Nurse I

JOB CODE: 2122

2. Participates in training related to job responsibilities and completes required training as soon as feasible.
3. Develops collegial relationships for the purpose of professional development.
4. Completes basic required programmatic trainings and others that are consistent with job responsibilities.
5. Completes required yearly updates/trainings as required by selected programs.

Demonstrates a commitment to a healthy and safe work environment.

1. Follows established federal, state or local policies, procedures and programs relating to health and safety in the workplace.
2. Takes steps to promptly correct hazardous conditions.
3. Regularly participates in training and education in safety practices and procedures, such as annual OSHA training.

Participates in the Local Health Department's Bioterrorism and Disaster Preparedness activities.

9. Is aware of general contents of agency's Emergency Operations Plan.
10. Identifies role in Emergency Preparedness and Response.
11. Identifies agency's chain of command and management system for emergency response.
12. Participates in Bioterrorism and Emergency Preparedness drills.

SUPERVISION RECEIVED: Receives close to moderate supervision by the nursing supervisor. Functions with increasing independence with readily available access to supervisor.

SUPERVISION EXERCISED: May supervise LPNs, unlicensed assistive personnel and support staff consistent with the Kentucky Board of Nursing Advisory Opinion on Delegated Authority, as well as, local and state guidelines.

JOB SPECIFICATIONS:

Knowledge:

- Knowledge of professional nursing theory, standard nursing protocol and the legal implications of nursing practice, including relevant statutes and regulations.
- Knowledge of the scope of practice for the RN, LPN, and ARNP in Kentucky.
- Knowledge of the KBN Delegation Advisory Opinion Statement.

JOB TITLE: Local Health Nurse I

JOB CODE: 2122

- Knowledge of evidence-based practice and its application in the promotion of healthy outcomes.
- Knowledge of the preparation of nursing care plans for individuals.

Skills:

- Working skill in the application of nursing techniques, procedures and instruments according to recognized policies.
- Working skill in interviewing and counseling clients.
- Moderate level of skill in utilizing appropriate oral and written communication with clients, physicians, nurses and other staff regarding evaluation or treatment.

Abilities:

- Ability to learn the standard procedures and services of the local health agency.
- Ability to interview and counsel clients.
- Ability to encourage clients to participate in the appropriate and various health programs.
- Ability to develop cooperative working relationships with other service providers and to function well as a team member.
- Ability to use good nursing judgment to determine when to refer a client to another health care provider for further evaluation or treatment.

MINIMUM EDUCATION, TRAINING, AND EXPERIENCE REQUIREMENTS:

An Associate degree or diploma from an accredited college, university, or school of nursing.

Must have met all requirements of KRS 314.041, having received a provisional license and approval to practice as a Registered Nurse Applicant (RNA) or having a current active Kentucky Registered Nurse license.

No previous nursing practice experience required.

NOTE: New classification as of 7-1-06.

The intent of this job description is to provide a representative summary of duties and responsibilities that will be required of positions given this title and shall not be construed as a declaration of the specific duties and responsibilities of any particular position. Employees may be requested to perform job-related tasks other than those specifically presented in this description.

JOB DESCRIPTION

The intent of this job description is to provide a representative summary of duties and responsibilities that will be required of positions given this title and shall not be construed as a declaration of the specific duties and responsibilities of any particular position. Employees may be requested to perform job-related tasks other than those specifically presented in this description.

JOB DESCRIPTION

JOB TITLE: Local Health Nurse Specialist

GRADE: 20

JOB CODE: 2126

EST. DATE: 7-1-06

GENERAL FUNCTION: The nurse in this position has gained experience in the local health department, completed the training/educational sessions in the service areas of assignment and has become fully proficient in these areas of responsibilities. Provides decreasing amount of time with direct client care, but an increased amount of time serving as a primary resource person and consultant for an assigned area, such as Risk Management, OSHA, HIPAA, or Quality Assurance. Serves as a resource person for nurses, medical staff and other agency staff regarding agency, state, local and federal standards, regulations and documentation requirements for the assigned area. Requires the independent application of experienced judgment and skills. All activities are carried out under general supervision in accordance with the Kentucky Board of Nursing Practice Act, the Kentucky Department for Public Health mission, goals, and essential services, the Kentucky Public Health Practice Reference (PHPR), and other relevant federal, state, and local guidelines.

COMPETENCIES AND CHARACTERISTIC RESPONSIBILITIES:

When indicated and on a limited basis, as needed, provides basic nursing care to the client based on determined needs either on an ongoing or infrequent basis consistent with the PHPR, Nursing Scope and Standards of Practice, established policies, procedures, and licensing laws.

1. Reviews client's medical record for history of provided services and plans of care.
2. Identifies relevant and appropriate data and information sources.
3. Identifies health risks and implements risk reduction strategies for self and others.
4. Reports incidents according to proper procedures.
5. Refers to supervisor as needed.
6. Delegates aspects of nursing care to other members of the health care team commensurate with their educational preparation and experience and provides appropriate oversight.
7. Uses basic computer skills to access data and retrieve programmatic information from the PHPR with minimal assistance.
8. Uses the PHPR as a reference guide.
9. Utilizes considerable awareness of community assets and available resources when assisting with making appropriate referrals and outreach.
10. Documents services provided to the client in the medical record entering required service/program specific information according to the PHPR and Administrative Reference (AR). Maintains confidentiality and privacy

JOB TITLE: Local Health Nurse Specialist (Continued) **JOB CODE:** 2126

within the agency, state medical information requirements and HIPAA guidelines.

Provides overall management and guidance to specifically assigned area.

1. Gathers information either directly by observation or indirectly through reports in order to evaluate compliance with assigned area's rules and guidelines.
2. Assures that agency and staff have needed equipment and information in order to comply with assigned area's rules and guidelines.
3. Answers questions and facilitates role as assigned area expert and consultant.
4. Anticipates potential problem situations and intervenes to offset any adverse impact.
5. Maintains an environment of trust, fairness, consistency and confidentiality with diverse team members and with other client/family members.
6. Provides advice, counsel and instruction to nurses and other staff members on both work and administrative matters pertaining to assigned area.
7. Prepares reports for assigned area, as indicated, for local or state agencies.

Communicates effectively both in writing and orally, including documentation, record keeping and correspondence.

1. Uses appropriate communication strategies to effect positive client care outcomes.
2. Listens to others and shares knowledge in a non-judgmental manner.
3. Communicates or disseminates information to staff by informal or formal means.
4. Communicates information, concerns or problems to the Supervisor I, as needed, regarding assigned area.

When indicated and as needed, develops and conducts educational counseling and teaching activities either formally or informally.

1. Provides current and up to date information regarding assigned area to agency employees.
2. Utilizes selected educational methods and materials that are appropriate to language, reading level and needs.
3. Periodically evaluates teaching plan(s) based on the staff's level of compliance with the assigned area.

Practices with professionalism and accountability as employee of the local health department.

1. Adheres to local health department attendance and punctuality policies.

JOB TITLE: Local Health Nurse Specialist (Continued) JOB CODE: 2126

2. Organizes, prioritizes and provides care in a timely and cost-effective manner.
3. Prioritizes work assignments to accomplish job tasks.
4. Practices fiscal responsibility through timely correct coding of employee time sheet, Patient Encounter Form (PEF), Supplemental Reporting Form, and Community Reporting Form.

Develops and implements a plan of continued professional growth and development.

1. Maintains nursing CEUs and seeks continuous learning opportunities.
2. Participates in training related to job responsibilities and completes required training as soon as feasible.
3. Develops collegial relationships for the purpose of professional development.
4. Completes basic required programmatic trainings and others that are consistent with job responsibilities.
5. Completes required yearly updates/trainings as required by selected programs.

JOB DESCRIPTION

JOB TITLE: Nurse Supervisor I

GRADE: 22

JOB CODE: 2128

EST. DATE: 7-1-06

GENERAL FUNCTION: Under the direction of the Nurse Supervisor II, the Nurse Administrator, Director of Nurses or designee, performs multi-tasks with a high degree of competency. Provides direct supervision and performance evaluations of assigned LPNs, LHNs, LHN Specialists, Nurse Program Managers, PHNs and ARNPs. May coordinate specific program areas, such as Home Health, HANDS and School Health. May provide direct client care as needed and time permits.

COMPETENCIES AND CHARACTERISTIC RESPONSIBILITIES:

Reviews schedules of assigned health clinics.

1. Prepares work schedules and makes daily assignments of nursing staff.
2. Assigns follow-up activities.

Provides direct client care as needed.

1. Uses basic computer skills to access data and retrieve programmatic information from the PHPR with minimal assistance.
2. Uses the PHPR as a reference guide.
3. Documents services provided to the client in the medical record entering required service/program specific information according to the PHPR and Administrative Reference (AR). Maintains confidentiality and privacy within the agency, state medical information requirements and HIPAA guidelines.
4. Delegates aspects of nursing care to other members of the health care team commensurate with their educational preparation and experience and provides appropriate oversight.
5. Ensures proper dispensing and secure storage of medications.

Makes observations of the delivery and quality of client care and leads quality improvement activities.

1. Maintains records and reports according to program standards as defined by the PHPR/AR.
2. Conducts periodic reviews of medical records, nursing care plans and nursing related reports to ensure proper delivery and documentation of services.
3. Consistently monitors compliance with standards of care by observation, verbal reports and written documentation.
4. Monitors the implementation of all organizational policies, primarily clinical practice standards, through direct observation and interaction with nursing staff.

Communicates effectively both in writing and orally, including documentation, record keeping and correspondence.

1. Uses therapeutic communication effectively with clients, families and health team members.
2. Uses appropriate communication strategies to effect positive client care outcomes.
3. Listens to others and shares knowledge in a non-judgmental manner.
4. Demonstrates effective skills in employee counseling.
5. Communicates or disseminates information to staff.
6. Facilitates clear communication of expectations and accountabilities to staff.

Assesses and evaluates learning needs of clients, staff and the community.

1. Provides client or community education as indicated.
2. Assesses team's learning needs and/or individual nurse's training needs and makes recommendations to the Supervisor II or other supervisory personnel for in-service or other forms of training.
3. May provide occasional in-service training.
4. Adds to the knowledge of others via professional activities such as presentations, publication, research, policy development/change, and/or professional/community boards.

Works collaboratively with others to identify and address issues, solve problems and evaluate outcomes.

1. Independently collaborates with multidisciplinary team members.
2. Represents the agency in various meetings and organizations.
3. Participates in meetings of the supervisors or other administrative staff.

Demonstrates a leadership style that is facilitative and collaborative.

1. Serves as a mentor and consultant in assuming responsibility and accountability for efficient use of human and other resources to manage clients and/or staff in a client care area.
2. Maintains an environment of trust, fairness, consistency and confidentiality with diverse team members and with other client/family members.
3. Coordinates client flow, as needed, in the practice area.
4. Models effective clinical decision making skills.
5. Motivates employees to improve the quality and quantity of work performed.
6. Interviews applicants for vacant LHN/PHN positions and makes recommendations to Supervisor II.
7. Provides advice, counsel and instruction to nurses on both work and administrative matters.
8. Serves as a resource in decision-making activities, which require knowledge related to area specific policies, procedures and guidelines.

JOB TITLE: Nurse Supervisor I (Continued)

JOB CODE: 2128

Resolves work problems presented by LHNs/PHNs and recommends or implements ways to improve production or quality of work.

1. Proactively identifies problems and collaborates with the health care team to find solutions.
2. Demonstrates and role models effective communication, problem solving processes and conflict resolution skills.
3. Refers complaints or concerns of a more serious nature to the Nurse Supervisor II.

Completes performance evaluations of LHN/PHN staff as assigned.

1. Defines the qualifications and performance expectations for assigned staff positions through the performance development system, including specific job descriptions and measurable performance standards.
2. Provides immediate and summary performance evaluations.
3. Monitors performance against service standards.
4. Provides appropriate feedback to staff and assists in the development of plans to increase compliance and/or to correct deficiencies.
5. Participates in the disciplinary process of staff as indicated and needed.
6. Informs the Supervisor II, Nurse Administrator or Director of Nurses of actual or anticipated issues or problems.
7. Prepares formal performance evaluation reports using agency's selected form.

Practices with professionalism and accountability as employee of the local health department.

1. Adheres to local health department attendance and punctuality policies.
2. Organizes, prioritizes and provides care in a timely and cost-effective manner.
3. Prioritizes work assignments to accomplish job tasks.
4. Practices fiscal responsibility through timely correct coding of employee time sheet, Patient Encounter Form (PEF), Supplemental Reporting Form, and Community Reporting Form.
5. Assures area supplies and equipment are utilized efficiently and cost-effectively, while meeting client care needs.

Develops and implements a plan of continued professional growth and development.

1. Maintains nursing CEUs and seeks continuous learning opportunities.
2. Participates in training related to job responsibilities.

Demonstrates a commitment to a healthy and safe work environment.

1. Follows established federal, state or local policies, procedures and programs relating to health and safety in the workplace.
2. Takes steps to promptly correct hazardous conditions.

JOB TITLE: Nurse Supervisor I (Continued)

JOB CODE: 2128

3. Regularly participates in training and education in safety practices and procedures, such as annual OSHA training.

Participates in the Local Health Department's Bioterrorism and Disaster Preparedness activities.

1. Is aware of general contents of agency's Emergency Operations Plan.
2. Identifies role in Emergency Preparedness and Response.
3. Identifies agency's chain of command and management system for emergency response.
4. Participates in Bioterrorism and Emergency Preparedness drills.

SUPERVISION RECEIVED: Receives moderate supervision by the Nurse Supervisor II, Nurse Administrator and/or Director of Nurses.

SUPERVISION EXERCISED: May supervise LPNs, LHNs, PHNs, LHN Specialists, Nurse Program Managers and unlicensed assistive personnel and support staff consistent with the Kentucky Board of Nursing Advisory Opinion on Delegated Authority, as well as, local and state guidelines.

JOB SPECIFICATIONS:

Knowledge:

May coordinate specific program areas, such as Home Health, HANDS and School Health. May provide direct client care as needed and time permits.

COMPETENCIES AND CHARACTERISTIC RESPONSIBILITIES:

Reviews schedules of assigned health clinics, as needed.

1. Prepares work schedules and makes daily assignments of nursing staff. Documents schedules appropriately.
2. Coordinates client flow, as needed, in the practice area.
3. Coordinates follow-up activities for clinical programs.
4. Approves requested leave.
5. Schedules Local Board of Health meetings and may attend.
6. May coordinate building maintenance activities.
7. Maintains safe work environment according to regulatory standards.

Participates in the delivery of nursing care services and provides direct client care as needed and time permits.

1. Uses basic computer skills to access data and retrieve programmatic information from the PPHP with minimal assistance.
2. Uses the PPHP as a reference guide.
3. Documents services provided to the client in the medical record entering required service/program specific information according to the PPHP and Administrative Reference (AR). Maintains confidentiality and privacy within the agency, state medical information requirements and HIPAA guidelines.
4. Delegates aspects of nursing care to other members of the health care team commensurate with their educational preparation and experience and provides appropriate oversight.
5. Ensures proper dispensing and secure storage of medications.
6. Oversees the development of nursing care plans.

Makes observations of the delivery and quality of client care and leads quality improvement activities.

1. Maintains records and reports according to program standards as defined by the PHPR/AR.
2. Conducts periodic reviews of medical records, nursing care plans and nursing related reports to ensure proper delivery and documentation of services.
3. Consistently monitors compliance with standards of care by observation, verbal reports and written documentation.
4. Monitors the implementation of all organizational policies, primarily clinical practice standards, through direct observation and interaction with nursing staff.

Communicates effectively both in writing and orally, including documentation, record keeping and correspondence.

1. Uses therapeutic communication effectively with clients, families and health team members.
2. Uses appropriate communication strategies to effect positive client care outcomes.
3. Listens to others and shares knowledge in a non-judgmental manner.
4. Demonstrates effective skills in employee counseling.
5. Communicates or disseminates information to staff.
6. Facilitates clear communication of expectations and accountabilities to staff.

Assesses and evaluates learning needs of clients, staff and the community.

1. Provides client or community education as indicated.
2. Participates in community health activities.
3. Assesses team's learning needs and/or individual nurse's training needs and makes recommendations to the appropriate supervisor for in-service or other forms of training.
4. May provide occasional in-service training.
5. Documents training records appropriately.
6. Adds to the knowledge of others via professional activities – presentations, publication, research, policy development/change, and/or professional/community boards.
7. Provides for orientation and training of new nursing employees.
8. Works with educational institutions in planning for appropriate clinical experiences for students while in the health department.

Works collaboratively with others to identify and address issues, solve problems and evaluate outcomes.

1. Establishes good rapport and cooperative working relationships with agency staff.

2. Independently collaborates with multidisciplinary team members.
3. Represents the agency in various meetings and organizations.
4. Conducts regular meetings with staff members to resolve nursing problems and to disseminate information.
5. Facilitates meetings of the supervisors or other administrative staff.
6. May conduct monthly staff meetings.
7. Considers a broad spectrum of factors when making decisions, including policy, economic impact, and effect on client care and the agency.
8. Makes decisions on personnel policy matters affecting assigned subordinate staff.

Demonstrates a leadership style that is facilitative and collaborative.

1. Participates in the development of goals, objectives, and policies for the Supervisor I nurses and for those related to the provision of client care.
2. Serves as a mentor and consultant in assuming responsibility and accountability for efficient use of human and other resources to manage clients and/or staff in a client care area.
3. Maintains an environment of trust, fairness, consistency and confidentiality with diverse team members and with other client/family members.
4. Models effective clinical decision making skills.
5. May coordinate or manage one or more assigned programs.
6. Interviews applicants for vacant LHN/PHN and Supervisor I positions and makes recommendations to the Nurse Administrator or Director of Nurses.
7. Provides advice, counsel and instruction to nurses and Supervisor I's on both work and administrative matters.
8. Serves as a resource in decision-making activities, which require knowledge related to area specific policies, procedures and guidelines.
9. Delegates authority, as appropriate, to subordinate supervisors and provides appropriate mentorship.

Resolves work problems presented by the Supervisor I nurse/s and recommends or implements ways to improve production or quality of work.

1. Promotes team building among nursing staff.
2. Proactively identifies problems and collaborates with the health care team to find solutions.
3. Demonstrates and role models effective communication, problem solving process and conflict resolution skills.
4. Refers complaints or concerns of a more serious nature to the Nurse Administrator or Director of Nurses.

Performs performance evaluations of LHN/PHN staff, as assigned, and of the Nurse Supervisor I nurse/s.

1. Defines the qualifications and performance expectations for assigned staff positions through the performance development system, including specific job descriptions and measurable performance standards.
2. Provides immediate and summary performance evaluations.
3. Consistently monitors performance against service standards.
4. Provides appropriate feedback to staff and assists in the development of plans to increase compliance and/or to correct deficiencies.
5. Participates in the disciplinary process of staff as indicated and needed.
6. Informs the Nurse Administrator or Director of Nursing of actual or anticipated issues or problems.
7. Prepares formal performance evaluation reports using agency's selected form.

Practices with professionalism and accountability as employee of the local health department.

1. Adheres to local health department attendance and punctuality policies.
2. Organizes, prioritizes and provides care in a timely and cost-effective manner.
3. Prioritizes work assignments to accomplish job tasks.
4. Practices fiscal responsibility through timely correct coding of employee time sheet, Patient Encounter Form (PEF), Supplemental Reporting Form, and Community Reporting Form.
5. Monitors demand for services to ensure efficient allocation of personnel, equipment and supplies.
6. Assures area supplies and equipment are utilized efficiently and cost-effectively, while meeting client care needs.

Develops and implements a plan of continued professional growth and development.

1. Maintains nursing CEUs and seeks continuous learning opportunities.
2. Participates in training related to job responsibilities.

Demonstrates a commitment to a healthy and safe work environment.

1. Follows established federal, state or local policies, procedures and programs relating to health and safety in the workplace.
2. Takes steps to promptly correct hazardous conditions.
3. Regularly participates in training and education in safety practices and procedures, such as annual OSHA training.

JOB TITLE: Nurse Supervisor II (Continued)

JOB CODE: 2129

Participates in the Local Health Department's Bioterrorism and Disaster Preparedness activities.

1. Is aware of general contents of agency's Emergency Operations Plan.
2. Identifies role in Emergency Preparedness and Response.

Current active Registered Nurse license from the Kentucky Board of Nursing.

Associate degree or diploma from an accredited university, college or school of nursing. Five (5) years of nursing experience.

(Three (3) of the five (5) years of nursing experience must be in the Local Health Department (LHD) having successfully demonstrated competencies; with one (1) of the years having included supervisory experience.)

Note: Masters of Science in Nursing (MSN) or Masters in Public Health (MPH) may substitute for one (1) year of experience.

Note: Nurse Supervisor II nurses, having primary responsibilities supervising Public Health Nurses (PHNs), must have Bachelors of Science in Nursing (BSN) or higher.

New classification as of 7-1-06.

The intent of this job description is to provide a representative summary of duties and responsibilities that will be required of positions given this title and shall not be construed as a declaration of the specific duties and responsibilities of any particular position. Employees may be requested to perform job-related tasks other than those specifically presented in this description.

JOB DESCRIPTION

JOB TITLE: Public Health Nurse I

GRADE: 16

JOB CODE: 2130

EST. DATE: 7-1-06

General Function: This is the entry-level class in the Public Health Nurse series. Under general supervision, the Public Health Nurse provides basic public health nursing services, focusing on the prevention of illness, injury or disability, the promotion of health and maintenance of the health of populations. Services are provided to population groups and to individuals and/or families within the population groups in clinic or community settings. Work is performed under close to moderate supervision of the Nurse Supervisor and mentorship of an experienced Public Health Nurse, but with gradually increasing responsibility and independence as experience is acquired. Advancement to the Public Health Nurse II position requires satisfaction of the minimum qualification requirements and completion of required programmatic trainings.

COMPETENCIES AND CHARACTERISTIC RESPONSIBILITIES

Assists staff (PHN, etc.) in the community assessment and epidemiological investigation(s) of the health status of populations, groups, and individuals through the analysis of data collected from clients, families, medical practitioners, community service agencies, local and national surveys with a focus on the identification of at-risk populations. Participates in outbreak investigations and surveillance activities.

Participates in local health department and community initiatives that address specific at-risk target populations, public health disease prevention and health promotion strategies.

Participates in the development or refinement of health department policies and plans. Participates in continuous review and improvement of health department policies and procedures to prioritize and address the health needs of targeted populations. Serves as advocate for at-risk or high-risk population groups.

Provides or assists in providing a variety of Public Health Nursing services such as family planning, pre and postnatal care, communicable diseases and other health conditions in the clinic, home or community settings to particular at-risk or high-risk populations or populations with limited access to care

Interviews client and/or family. Conducts physical assessment according to agency and Public Health Practice Reference (PHPR) protocol. Collects health history and data regarding current health status and life situations. Assesses the physical, psychological, and social health care needs of individual clients or families as part of a population group.

JOB TITLE: Public Health Nurse I (Continued)

JOB CODE: 2130

Counsels individual clients and/or families regarding disease prevention/treatment, health maintenance and promotion in order to enhance the individual's ability to recognize the need for and to seek treatment to meet health care needs. Identifies cultural, social, and behavioral factors that impact delivery of services. Assesses eligibility for health department programs as appropriate.

Documents individual and/or family services in client record(s), reflecting medical history, examinations, tests performed, symptoms, and other client information according to agency protocol and policy. (PSRS)

Provides referral of clients to appropriate services that are available and acceptable to members of a particular population.

Participates or conducts health education instruction and/or classes to individuals, families, community and service groups, industry and business for the promotion and maintenance of health. Assists with problem-solving skills. Interprets department programs, policies and resources. Participates in implementation of emergency response plans.

Demonstrates a commitment to a healthy and safe work environment.

1. Follows established federal, state or local policies, procedures and programs relating to health and safety in the workplace.
2. Takes steps to promptly correct hazardous conditions.
3. Regularly participates in training and education in safety practices and procedures, such as annual OSHA training.

Participates in the Local Health Department's Bioterrorism and Disaster Preparedness activities.

1. Is aware of general contents of agency's Emergency Operations Plan.
2. Identifies role in Emergency Preparedness and Response.
3. Identifies agency's chain of command and management system for emergency response.
4. Participates in Bioterrorism and Emergency Preparedness drills.

SUPERVISION RECEIVED: Receives close to moderate supervision by the nursing supervisor. Functions with increasing independence with readily available access to supervisor.

SUPERVISION EXERCISED: May supervise LHNs, LPNs, unlicensed assistive personnel, and support staff consistent with the Kentucky Board of Nursing Advisory Opinion on Delegated Authority, as well as, local and state guidelines.

JOB TITLE: Public Health Nurse I

(Continued)

JOB CODE: 2130

JOB SPECIFICATIONS:

Knowledge:

- Thorough knowledge of the principles and practices of Public Health Nursing applicable to the assessment, promotion, and maintenance of at risk individuals, families and the community.
- Knowledge of information management systems and statistics to access, analyze and present accurate health status information.
- Working knowledge of how political and economic factors affect policy development and implementation.
- Considerable knowledge of environmental risk factors, environmental assessment mechanisms and communication of risk factors.
- Knowledge of the role of various community health care providers, social service, and advocacy agencies within the community.
- Knowledge of demographic, biostatistical and data collection methods utilized in evaluating public health needs and problems.
- Moderate knowledge of legal and regulatory information.
- Awareness of primary, secondary and tertiary prevention for individuals and community.
- Basic knowledge of contemporary learning techniques and different theories on education and learning.
- Moderate understanding of risk assessment and health risk assessment.

Skills:

- Managing a caseload and establishing priorities for case management, treatment and referrals.
- Preparing clear, complete and accurate documentation, reports and other written correspondence.
- Applying the principles of epidemiology to a wide variety of social and health problems.
- Communicating clear and accurate information regarding clients to physicians, health care providers and other health team members.
- Following up on recommended treatment plans to assure effective resolution of health related problems.
- Interpreting data collected from individual community assessments to determine health status and share with policymakers.
- Actively participating in public relations.
- Demonstrating cultural competency.
- Providing leadership and group development.
- Developing policy and program planning.
- Applying financial planning and management techniques.
- Utilizing and integrating strategic planning process.
- Analyzing and evaluating cost-effectiveness, cost-benefit and cost-utility.

JOB TITLE: Public Health Nurse I (Continued)

JOB CODE: 2130

- Utilizing knowledge of basic public health science.
- Performing in assertive manner as needed.
- Developing and administering surveys.

Abilities:

- Ability to establish and maintain effective working relationships with associates, clients, community groups and other public and private agencies.
- Ability to perform assessments of health status determining the need for and level of nursing and/or medical care for clients, family and other population groups.
- Ability to communicate effectively verbally and in writing.
- Ability to collect and analyze data to draw logical conclusions and make appropriate recommendations.
- Ability to maintain accurate records and document actions taken.
- Ability to deal with clients of various socio-economic backgrounds and temperaments.
- Ability to function in diverse settings and assessing cross-cultural relations.
- Ability to translate education information into compelling sound "bites".
- Ability to perform psychosocial, physical and emotional assessment of clients, recognizing normal from abnormal.
- Ability to coordinate work with the epidemiologist.
- Ability to perform, provide and document public health services in a clinic setting using the nursing process of assessment, planning and evaluation with minimal direct supervision.
- Ability to learn query management of information.
- Ability to exercise independent judgment.
- Ability to participate as an active member of the public health team.

MINIMUM EDUCATION, TRAINING, AND EXPERIENCE REQUIREMENTS:

Bachelor's Degree in nursing (BSN) from an accredited college or university.

Must have met all requirements of KRS 314.041, having received a provisional license and approval to practice as a Registered Nurse Applicant (RNA) or having a current active Kentucky Registered Nurse license.

No previous nursing practice experience required.

NOTE: New classification as of 7-1-06.

The intent of this job description is to provide a representative summary of duties and responsibilities that will be required of positions given this title and shall not be construed as a declaration of the specific duties and responsibilities of any particular position. Employees may be requested to perform job-related tasks other than those specifically presented in this description.

JOB DESCRIPTION

JOB TITLE: Licensed Practical Nurse I

GRADE: 10

JOB CODE: 2141

EST. DATE: 7-1-06

GENERAL FUNCTION: Under direct supervision, performs work of moderate difficulty in the provision of nursing services delegated by a registered nurse or physician to clients in a variety of community settings, including, but not limited to, clinics, homes and schools. The nurse in this classification would receive job specific training (mentorship) in the requirements and scope of practice of the various assigned health department programs and services. Job duties and responsibilities are carried out in accordance with the Kentucky Board of Nursing Practice Act, the Kentucky Department for Public Health mission, goals, and essential services, the Kentucky Public Health Practice Reference (PHPR), and other relevant federal, state, and local guidelines. Direct nursing services would be provided in routine and specialty clinics, according to the scope of practice for a LPN.

COMPETENCIES AND CHARACTERISTIC RESPONSIBILITIES:

Orients to health department programs and services, including the Core Functions and Essential Services. Orients to local policy guidelines and the Internal Control Program. Orients to the reporting procedures for abuse, neglect and exploitation.

Interviews client to address the presenting/initial reason for visiting the health department and subsequent willingness for service(s) offered and indicated. Conducts basic nursing assessment, as appropriate, of client using PHPR service guidelines to obtain and document pertinent physical, social, behavioral, environmental, and lifestyle factors that influence health. Obtains basic specimens, as directed, and utilizes the Division of Laboratory Services Guidelines for proper laboratory/specimens handling and packaging. Records results, as reported by laboratory, on client's chart. Describes services that are available (or refers) and eligibility criteria as appropriate.

Participates in the development and implementation of a plan(s) of care based on the health risks identified during the nursing assessment and discussion with the client, including eligibility determination, based on client specific characteristics (age, sex, race, programmatic, ethnic, cultural) outlining services to be provided to promote and maintain optimum health status of the client. Incorporates plan of care into the client medical record. Periodically updates plan of care based on follow-up visits and services provided and compliance of the client.

Provides basic nursing care under supervision to the client based on determined needs either on an ongoing or infrequent basis consistent with the PHPR,

JOB TITLE: Licensed Practical Nurse I

JOB CODE: 2141

Nursing Scope and Standards of Practice, established policies, procedures, and licensing laws.

1. Reviews client's medical record for history of provided services and plans of care.
2. Gathers pertinent, relevant and appropriate data about individual and family, past and current physical, mental and developmental status.
3. Under supervision of a registered nurse administers basic screening tests to identify health problems and carries out approved treatment.
4. Refers to the supervising registered nurse, as needed.
5. Uses basic computer skills to access data and retrieve programmatic information from the PHPR with minimal assistance
6. Uses the PHPR as a reference guide.
7. Makes proper referrals to supervisor, registered nurse, or physician for situations requiring further intervention.
8. Participates as team member, having basic understanding of the team process.

Documents services provided to the client in the medical record entering required service/program specific information according to the PHPR and Administrative Reference (AR). Maintains confidentiality and privacy within the agency, state medical information requirements and HIPAA guidelines.

Practices with professionalism and accountability as employee of the local health department.

1. Adheres to local health department attendance and punctuality policies.
2. Organizes, prioritizes and provides care in a timely and cost-effective manner.
3. Prioritizes work assignments to accomplish job tasks.
4. Practices fiscal responsibility through timely correct coding of employee time sheet, Patient Encounter Form (PEF), Supplemental Reporting Form, and Community Reporting Form.

Communicates effectively both in writing and orally, including documentation, record keeping and correspondence.

1. Uses therapeutic communication effectively with clients, families and health team members.
2. Uses appropriate communication strategies to effect positive client care outcomes.
3. Listens to others and shares knowledge in a non-judgmental manner.

Initiates appropriate teaching and demonstration of care for individual clients and families based on the nursing assessment, focusing on assisting the client/family in understanding their health needs with an emphasis on the promotion,

JOB TITLE: Licensed Practical Nurse I

JOB CODE: 2141

maintenance, and restoration of health, and self care, utilizing selected educational methods and materials that are appropriate to the language, reading level and needs. Periodically evaluates teaching plan(s) based on the progress of the client in complying with the objectives of the educational materials.

Develops and implements a plan of continued professional growth and development.

1. Maintains nursing CEUs and seeks continuous learning opportunities.
2. Participates in training related to job responsibilities and completes required training as soon as feasible.

Demonstrates a commitment to a healthy and safe work environment.

1. Follows established federal, state or local policies, procedures and programs relating to health and safety in the workplace.
2. Takes steps to promptly correct hazardous conditions.
3. Regularly participates in training and education in safety practices and procedures, such as annual OSHA training.

Participates in the Local Health Department's Bioterrorism and Disaster Preparedness activities.

1. Is aware of general contents of agency's Emergency Operations Plan.
2. Identifies role in Emergency Preparedness and Response.
3. Identifies agency's chain of command and management system for emergency response.
4. Participates in Bioterrorism and Emergency Preparedness drills.

SUPERVISION:

Supervision Received: Receives close to moderate supervision by the assigned registered nurse (LHN, PHN, ARNP, Nurse Supervisor, Nurse Administrator or Director of Nurses).

Supervision Exercised: May supervise unlicensed assistive personnel and support staff consistent with the Kentucky Board of Nursing Advisory Opinion on Delegated Authority, as well as, local and state guidelines.

JOB SPECIFICATIONS:

Knowledge:

1. Knowledge of professional nursing theory, standard nursing protocol and the legal implications of nursing practice.
2. Knowledge of the scope of practice for the Licensed Practical Nurse in Kentucky.
3. Knowledge of the KBN Delegation Advisory Opinion Statement.

JOB TITLE: Licensed Practical Nurse I

JOB CODE: 2141

4. Knowledge of the preparation of nursing care plans for individuals.
5. Good knowledge of basic nursing techniques and procedures, including administration of medications.

Skills:

1. Working skill in the application of basic nursing techniques, procedures and instruments according to recognized policies.
2. Working skill in interviewing and counseling clients, including those from a variety of socioeconomic backgrounds.
3. Moderate level of skill in utilizing appropriate oral and written communication with clients, physicians, nurses and other staff regarding evaluation or treatment.

Abilities:

1. Working ability to apply knowledge of basic nursing procedures in the provision of health services to clients.
2. Ability to accept direction from a registered nurse or physician.
3. Ability to learn the standard procedures and services of the local health agency.
4. Ability to interview clients and families.
5. Ability to encourage clients to participate in the appropriate and various health programs.
6. Ability to develop cooperative working relationships with other service providers and to function well as a team member.
7. Ability to use good nursing judgment to determine when to refer a client to another health care provider for further evaluation or treatment.

MINIMUM EDUCATION, TRAINING AND EXPERIENCE REQUIREMENTS:

1. Graduation from a school of practical nursing, college or community and/or technical college, which meets the requirements set by Kentucky State Law.
2. Current and active Kentucky Licensed Practical Nurse License; or
3. Must have met all requirements of KRS 314.051, having received a provisional license and approval to practice as an L.P.N.A.
4. No previous nursing practice experience is required.

The intent of this job description is to provide a representative summary of duties and responsibilities that will be required of positions given this title and shall not be construed as a declaration of the specific duties and responsibilities of any particular position. Employees may be requested to perform job-related tasks other than those specifically presented in this description.

JOB DESCRIPTION

JOB TITLE: Licensed Practical Nurse II

GRADE: 12

JOB CODE: 2142

EST. DATE: 7-1-06

GENERAL FUNCTION: Under direct supervision, performs work of moderate difficulty in the provision of nursing services delegated by a registered nurse or physician to clients in a variety of community settings, including, but not limited to, clinics, homes and schools. Services provided by this incumbent requires the use of experienced judgment and skills. Job duties and responsibilities are carried out in accordance with the Kentucky Board of Nursing Practice Act, the Kentucky Department for Public Health mission, goals, and essential services, the Kentucky Public Health Practice Reference (PHPR), and other relevant federal, state, and local guidelines. Direct nursing services would be provided in routine and specialty clinics, according to the scope of practice for a LPN.

COMPETENCIES AND CHARACTERISTIC RESPONSIBILITIES:

Interviews client to address the presenting/initial reason for visiting the health department and subsequent willingness for service(s) offered and indicated. Conducts basic nursing assessment, as appropriate, of client using PHPR service guidelines to obtain and document pertinent physical, social, behavioral, environmental, and lifestyle factors that influence health. Obtains basic specimens, as directed, and utilizes the Division of Laboratory Services Guidelines for proper laboratory/specimens handling and packaging. Records results, as reported by laboratory, on client's chart. Performs preliminary assessment and interpretation of tests to identify health problems. Reports assessment to supervisor. Describes services that are available (or refers) and eligibility criteria, as appropriate.

Compiles data for periodic assessments of client's physical condition and evaluation of the effectiveness of health care procedures, approaches and programs in conjunction with other members of the interdisciplinary treatment or nursing care team. Under the supervision of a registered nurse, evaluates assessment data and develops a nursing care plan. Incorporates a plan of care into the client's medical record. Periodically updates plan of care based on follow-up visits and services provided and compliance of the client.

Provides skilled practical nursing care under supervision to the client based on determined needs either on an ongoing or infrequent basis consistent with the PHPR, Nursing Scope and Standards of Practice, established policies, procedures, and licensing laws.

GRADE: 12

JOB CODE: 2153

DATE: 11/8/95

GENERAL FUNCTION: Under general supervision, performs work of moderate difficulty in the provision of nursing services delegated by a registered professional nurse which require the use of experienced judgments and skills, and in the supervision of other licensed practical nurses and support personnel; and performs related work as required.

CHARACTERISTIC DUTIES AND RESPONSIBILITIES:

Obtains information about past and current health status of patients.

Administers basic screening tests and performs preliminary assessment and interpretation of tests to identify health problems.

Under the supervision of a registered professional nurse, evaluates data and develops a nursing care plan.

Implements nursing care plans providing skilled practical nursing services to patients and delegated basic nursing services to other licensed practical nurses and supportive personnel.

May evaluate and monitor patient progress reports prepared by other licensed practical nurses, home health aides or clinical assistants and direct care staff, working closely with registered professional nurses, physicians or other professional treatment staff to ensure the coordination of services and proper implementation of nursing care and treatment plans.

Provides direction and supervision to licensed practical nurses and other support staff.

Demonstrates basic nursing techniques and procedures; provides orientation, on-the-job training and special instruction; assigns and oversees work activities; and evaluates performance with approval by immediate supervisor.

Participates in interdisciplinary or nursing team conferences; provides input into program planning by interpreting patient needs for nursing care and response to therapy.

Closely observes patients for changes in physical or mental condition; reports and documents changes for consultation with members of the health care team. Under the supervision of a physician, registered nurse or other appropriate professional, provides individual counseling specified in the patient treatment plan.

JOB TITLE: Senior LPN (Continued)

JOB CODE: 2153

Participates in patient education programs by teaching structured classes in personal hygiene, activities of daily living, or other topics designed to enhance the well-being of patients.

Compiles data for periodic assessments of patient/client's physical condition and evaluation of the effectiveness of health care procedures, approaches and programs in conjunction with other members of the interdisciplinary treatment team or nursing care team. May provide services in the home.

SUPERVISION RECEIVED: Moderate supervision under standard operating procedures; incumbent occasionally can function autonomously, with supervisor available to answer questions.

SUPERVISION EXERCISED: May supervise other licensed practical nurses and other direct care personnel such as community health worker or home health aides.

JOB SPECIFICATIONS:

Knowledge and Abilities:

Considerable knowledge of a variety of basic nursing techniques and procedures normally performed by licensed practical nurses and auxiliary nursing personnel; of the methods of obtaining health histories and performing preliminary assessments of health status; of standard record keeping and medication control procedures; of basic procedures to be followed in emergency situations.

Good knowledge of the procurement and maintenance of equipment and supplies used in nursing services; of special policies and procedures pertinent to the area of assignment; of the principles of ward management.

Demonstrates basic nursing techniques and procedures;

Considerable skill in the use of nursing procedures and techniques at the practical nurse level; in the use of a variety of basic nursing instruments.

Working skill in interviewing patient/clients; in performing more complex nursing procedures such as the insertion of naso-gastric tubes; in demonstrating basic nursing techniques and procedures to licensed practical nurses and auxiliary nursing personnel.

Considerable ability to recognize behavior and physical conditions which require the attention of a professional; to follow standard operating procedures of the assigned program or unit concerning the role and functions of a senior licensed practical nurse in the program or unit.

JOB TITLE: Senior LPN (Continued)

JOB CODE: 2153

Working ability to interpret policies and procedures to other licensed practical nurses and auxiliary nursing personnel; to implement nursing care plans and delegate basic nursing services to other licensed practical nurses and direct care staff; to develop and maintain cooperative working relationships with health care professionals and sub-professionals; to give clear and simple instructions; to understand and carry out detailed instructions.

Minimum Education, Training, and Experience Requirements: Current license to practice as a licensed practical nurse in the state of Kentucky. One (1) year of experience as a licensed practical nurse.

The intent of this job description is to provide a representative summary of duties and responsibilities that will be required of positions given this title and shall not be construed as a declaration of the specific duties and responsibilities of any particular position. Employees may be requested to perform job-related tasks other than those specifically presented in this description.

EPIDEMIOLOGIST

JOB TITLE: Epidemiologist

GRADE: 19

JOB CODE: 2170

DATE: 9-25-02

GENERAL FUNCTION: Under general supervision of the local health department director, performs complex epidemiological studies on the distribution and determinants of bio-terrorism events, infectious diseases, and other public health emergencies (epidemic and endemic). Work involves assisting in devising methods of surveillance, implementation, and analysis of epidemiological investigations or studies; participating in general data management and report writing for epidemiological studies and investigations within a specified geographic area of the state.

CHARACTERISTIC DUTIES AND RESPONSIBILITIES:

Assists with the maintenance of a health-monitoring database for the early recognition of any clustering of events, for the analysis of community health patterns to facilitate resource allocation and for the study of hypotheses on the health of the community.

Designs surveys and questionnaires to collect data on specific diseases.

Conducts studies designed to identify segments of the population at greater risk of acquiring specific diseases and identify factors associated with disease.

Conducts field investigations during periods of unusual occurrences of disease.

Performs statistical analyses of study data. Tabulates, charts and graphs health related data for analysis of agent, host and environmental factors. Utilizes appropriate computer programs for the statistical analysis of data.

Plans and organizes new methods for obtaining additional health data and for improving the reliability and validity of health data being collected by the local health department and the Department for Public Health.

Assists in the formulation of hypotheses to explain the differential occurrence of diseases in various population groups and locations in Kentucky, and assists in the design of epidemiological studies to test these hypotheses.

Assists in the formulation of recommendations for interventions to reduce the occurrence and/or severity of diseases or injuries of public health significance in the state. Develops valid useful criteria for defining and prioritizing health needs and public health programs.

JOB TITLE: Epidemiologist (Continued)

JOB CODE: 2170

Provides consultation, educational programs, information sharing conferences, in-service programs for health department professionals, community groups, etc. about relevant epidemiological subjects (control of communicable and non-communicable diseases).

Reads, interprets and prepares technical reports on epidemiological studies and investigations.

SUPERVISION RECEIVED: limited supervision with alternating periods of autonomy and general review. Supervisor plays limited role in setting objectives and organizing work. The Kentucky Division of Epidemiology and Health Planning will set epidemiological objectives.

SUPERVISION EXERCISED: May supervise designated staff

JOB SPECIFICATIONS:

Knowledge and Abilities:

Knowledge of the basic principles and methods of epidemiology and biostatistics

Knowledge of infectious disease, adverse reproductive outcomes, cancer or other chronic disease processes.

Knowledge of occupational and environmental diseases or injuries.

Knowledge of basic biological processes.

Oral and written communications skills

Skill in communicating scientific/medical information succinctly and accurately to groups of people with a variety of experience

Interpersonal skills

Knowledge of computer application(s) in investigative techniques and data collection.

Ability to independently perform epidemiological investigations

Ability to independently collect, analyze and interpret epidemiological data.

Minimum Education, Training and Experience Requirements: Graduate from an accredited college or university with a master's degree in Epidemiology, Public Health, Biostatistics, or closely related field. Course work should include at least one course in

JOB TITLE: Epidemiologist (Continued)

JOB CODE: 2170

epidemiology and a second course in a closely related subject area such as;

Biostatistics, Vital and Medical Statistics, Informatics, Survey Sampling and Design, etc.).

A Masters or Doctoral candidate in a field above may be considered so long as the graduate work is completed within one (1) year of employment.

Example of duties or responsibilities are not to be construed as describing what the duties or responsibilities of any position shall be and are not to be construed as limiting the appointing authority's ability to add to, or otherwise alter the duties and responsibilities of a position. The use of an individual expression or illustration as to duties or responsibilities shall not be regarded, as excluding assignments of others not mentioned which are of similar kind or quality.

SENIOR EPIDEMIOLOGIST

JOB TITLE: Senior Epidemiologist

GRADE: 21

JOB CODE: 2171

DATE: 1-26-05

GENERAL FUNCTION: Under general supervision of the local health department director, performs complex: epidemiological studies on the distribution and determinants of bioterrorism events, infectious diseases, and other public health emergencies (epidemic and endemic). Work involves assisting in devising methods of surveillance, implementation, and analysis of epidemiological investigations or studies; participating in complex data management and report writing for epidemiological studies and investigations within a specified geographic area of the state. Involves close consultation with and training of community medical professionals.

CHARACTERISTIC DUTIES AND RESPONSIBILITIES:

Conducts and supervises disease surveillance for the health department in collaboration with key community partners.

Assists in the formulation of recommendations for interventions to reduce the occurrence and/or severity of diseases of public health significance in the region/county. Reads, interprets and prepares technical reports on epidemiologic studies and investigations.

Conducts field investigations during periods of unusual occurrence of disease.

Coordinates activities with other local and state agencies. Attends meetings, training, Seminars, and workshops related to epidemiology. Coordinates activities in the health department in relationship to epidemiology.

Participates in various department communicable disease clinics such as SID and TB. Supervises and/or conducts interviews with individuals and other agencies as needed to obtain disease information.

Educates other staff and the public on the policies and procedures for effective disease Surveillance and control. Develops and maintains updated data systems of current epidemiology information.

Assists with the development of operational drills and/or exercise scenarios designed to train, test and evaluate emergency response concepts or standard operating guidelines.

Designs surveys and questionnaires to collect data on specific diseases. Tabulates, charts and graphs health related data for analysis of agent, host and environmental factors. Conducts studies designed to identify segments of the population at greatest risk of

JOB TITLE: Senior Epidemiologist (Continued)

JOB CODE: 2171

acquiring specific diseases and to identify risk factors associated with disease.

Assists in the formulation of hypotheses to explain the differential occurrence of diseases in various population groups and locations in Kentucky, and assists in the design of epidemiologic studies to test these hypotheses. Applies appropriate scientific sampling techniques in the selection of study subjects and controls so as to minimize bias and assure the validity of study conclusions. Performs statistical analyses of study data.

SUPERVISION RECEIVED: General direction, working from broad goals and policies.

Supervisor plays limited role in setting objectives and organizing work. The Kentucky Division of Epidemiology and Health Planning may assist in setting epidemiological objectives. Employee participates heavily in setting work objectives.

SUPERVISION EXERCISED: May supervise designated staff

JOB SPECIFICATIONS:

Knowledge and Abilities:

Thorough knowledge of epidemiology & control of infectious & chronic diseases.

Thorough knowledge of epidemiological and public health principles, methods and procedures.

Working knowledge of etiology, prevention and treatment of communicable and chronic diseases.

Considerable knowledge of state and local laws, regulations and policies governing the investigation and reporting of communicable diseases.

Ability to use SPSS, SAS or similar statistical package, Epi Info, MS Access, Excel, and PowerPoint. If candidate does not have experience with aforementioned programs, they must have demonstrated ability to use complex software programs for epidemiological purposes.

Ability to identify potential communicable or acute and chronic health conditions and take appropriate action.

Ability to analyze statistical data, draws appropriate conclusions, and prepare statistical and narrative reports.

Ability to work effectively with a wide range of health professionals in a teamwork setting.

JOB TITLE: Senior Epidemiologist (Continued)

JOB CODE: 2171

Ability to work with the public in sensitive health matters.

Ability to communicate effectively in order to make presentations on technical matters to Professional and lay audiences.

Ability to maintain accurate records.

Ability to work effectively with minimum supervision.

Ability to design, direct and conduct epidemiological field studies and research projects, evaluate results and summarize conclusions.

Must be willing to be on-call twenty fours (24) hours a day, seven (7) days a week and have a Kentucky driver's license with reliable transportation

Minimum Education, Training and Experience Requirements: Graduate from an accredited college or university with a master's degree in Epidemiology, Public Health, Biostatistics, or a closely related field. Course work must include at least one course in epidemiology, and a second course closely related subject as Biostatistics, Vital and Medical Informatics, Survey sampling, and Design, etc. Must have at least two (2) years of public health experience as Epidemiologist.

Example of duties or responsibilities are not to be construed as describing what the duties or responsibilities of any position shall be and are not to be construed as limiting the appointing authority's ability to add to, or otherwise alter the duties and responsibilities of a position. The use of an individual expression or illustration as to duties or responsibilities shall not be regarded, as excluding assignments of others not mentioned which are of similar kind or quality.
